About CMI

Chennai Mathematical Institute is one of the leading institutes dedicated to research in the world, specializing in Mathematics, Physics, and Theoretical Computer Science. It was founded by the SPIC science foundation in 1989, with an objective of top class research in mathematical sciences. CMI is renowned for its research in algebraic geometry, complexity theory, string theory, and other fields. Today, CMI is a rare example of public-private partnership in research and education in India. The Institute receives major private funding, side by side with substantial financial support from the Government of India.

About Tessellate

Tessellate is the brainchild of students at Chennai Mathematical Institute, and serves to both develop further interest in mathematics, and as a fun reprieve for students to break from their rut and flex their creative and competitive muscles. It all started when the student body of a small research institute tessellated seemingly unrelated cultural and academic events in a seamless manner. The fugues of music, theory and mathematics that segued into captivating Carnatic concerts, sacrificed knights and FIFA fights that preceded pro-nights, major's questions and trading suggestions that accompanied multiple mentoring sessions led to the fun-filled event.
